Night Sky Lanterns® Show

**A UNIQUE AND SPECTACULAR DISPLAY OF LANTERNS FLYING IN TO THE NIGHT SKY
THE ONE AND ONLY SHOW WHERE THE AUDIENCE BECOMES THE PROTAGONIST**

With our expertise and passion for sky lanterns we have turned the night sky of millions of people in to magical, unforgettable and emotional experience. With the supervision of our trained personnel, the public will be the protagonist in the launch of spectacular displays of hundreds or thousands of lanterns that illuminate the immensity of the night sky with colours and shapes according to the theme of the event. The paper of our sky lanterns can also be personalised with a message, brand name, logo or a digital photo to create a unique spectacle every time. This show can be hosted to promote new businesses, corporate events and charities fundraising, festivals, concerts and fashion catwalks, sport events, weddings and birthdays, private parties and festivities, religious traditions and memorials, white/pink/red nights and film movie shots.

We turn the night into a mystical fairy-tale for all participants

Italian Royal Wedding – Prince Lorenzo De Medici and his beloved Rosemary Johnson

Amazing sky lanterns shows in United Kingdom and all over the World

This fantastic Night Sky Lanterns Show can be hosted throughout the UK or anywhere we are invited to host a show, whether abroad, on a cruiser or at the North Pole. We will take care of the entire preparation and promotion of the event, including the identification of the most suitable site according to the number of participants/lanterns, and where necessary we will also request the authorizations from the Authorities, such as the local Council, Aviation and Coastguard Authorities, so that everything occurs in safety and with great fun. The launch will be supervised and coordinated by our instructor/s and trained staff, who before authorising the synchronised launch, they will have assessed that the actual meteorological situation is suitable for the sky lanterns to take-off and confirm that air space is clear from aviation traffic. Once all possible risks have been assessed, our instructor will do a practical demonstration to the public and to the participants involved in the execution of synchronised take-off of hundreds or thousands of lanterns all at the same time. In addition, we will promote the event through our communication channels, to give maximal exposure to our followers and sky lanterns lovers and ensure that there are a greater number of attendances of spectators and participants at the event. If required we can also provide a sound system according to the size of the event which will accompany the show with music and symphonies to enhance this magical experience.

To ensure maximum reliability we only use our branded Night Sky Lanterns® premium quality or above which are made with high quality materials to guarantee an excellent result every event. CE registered products, conform to European standards and The Code of Practice Sky Lanterns issued by the Trading Standards Institute.

Thick and non-flammable paper - 100% biodegradable & wire free - Eco-Friendly - Non-toxic & Odour free – Non-drip and Easy to light fuel cell
